## LM-80B&LM-80E Laser Machine

# User Manual

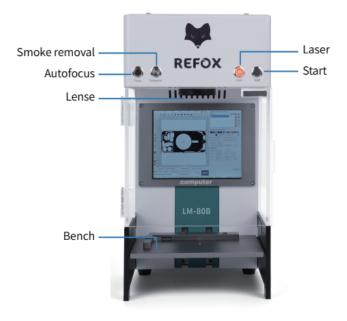

(Please be sure to read this manual carefully before use)

#### **Product Introduction**

REFOX LM-80B/LM-80E is a powerful and practical automatic laser disassembly screen marking machine, built-in high-definition computer, equipped with accurate drawings, supporting a variety of mobile phone back covers marking and engraving of various objects. The performance of the laser head is stable and reliable, and the imported sensor is auto-focusing, one-button to start, simply operated. It is widely used in the back cover glass refurbishment of the mobile phone repair industry, especially suitable for small maintenance shops or the repair shops in shopping malls.

## **Product Diagram**

#### Features

- Built-in operation system, no need for an external computer
- Built-in fume extractor to prevent the spread of harmful smoke
- Auto focus, convenient and precise
- The design is light and saving space
- Stable performance, low after-sale rate

## **Packing List**

Item	Quantity
Laser Machine	X 1
Power Cord	X 1
Filter Element	X 2
Filiter Cotton	X 2
Keyboard	X 1
Mouse	X 1
Marking Test Cards	X 5
Hexagon Wrench	X 1

#### Parameters

Product Name	Laser Machine
Brand	REFOX
Product Model	LM-80B/LM-80E
Voltage	110V/220V
Product Power	500W
Laser Power	LM-80B:6W/LM-80E:20W
Marking Precision	≤0.001mm
Marking Speed	≤10000mm/s
Cooling Mode	Built-in cold air
Laser Length	1064nm
Marking Width	0.05-0.1mm
Marking Format	175mm*175mm
Marking Depth	0.015-0.5mm
Repeated Measurement	≤0.001mm
Product Size	42.5*24*46cm
Screen Size	20*15cm
Package Size	52.5*35*61cm
Net Weight	19.5kg
Gross Weight	27kg

### **Steps for Usage**

- 1. Connect to the power supply, turn on the power switch, and remove the lens cover;
- 2. Press the "Laser" button; (the screen of LM-80B will light up till the button is pressed )
- 3. Open the software and call up the corresponding drawings;
- 4. Place the phone along the fixed strip and turn on the Exhauster switch;
- 5. Press the Focus button to automatically focus the point;
